

TRUE WHIG.

BOOK AND JOB PRINTING,
WHOLESALE AND RETAIL, EXHIBITED
AT THIS OFFICE.

BLANKS OF ALL KINDS
PRINTED AND FOR SALE AT THIS OFFICE.

W. H. PARVIN, newspaper and advertising agent,
Cincinnati, is authorized to receive and accept for sub-
scriptions and advertising for the True Whig.
Y. B. PALMER, Newspaper and Advertising Agent,
Brown's Iron Building, Philadelphia, is our only authorized
agent in that city.

RAIL ROAD MAIL.
TIME FOR THE MAILS ON THE CHATTANOOGA R. R.
Leave Nashville at 7 A. M. and 3 P. M.
Arrive at Nashville at 7 A. M. and 3 P. M.
The Mails for the Eastern and Southern Cities close at
7 A. M. and for Way Offices at 8 o'clock, P. M.
S. R. ANDERSON, P. M.

WEDNESDAY MORNING, OCT. 3.

ANNOUNCEMENTS.

Mr. J. H. McINTOSH is a candidate for the office of State Treasurer.
We are authorized to announce Mr. W. R. ROBINSON,
of Union county, a candidate for Dr. Keeper to the next
House of Representatives.
We are authorized to announce WM. J. MALLOY,
of Dickson county, a candidate for Principal Deputy Keeper to
the next House of Representatives.

THE WEATHER.—The weather yesterday gave
us a clear and unmitigated foretaste of Au-
tumn. The wind blew cold and brisk, accom-
panied by occasional showers, and the
clouds were low and heavy. The falling
leaves seemed to sigh for the days of the
beauty and verdure. Autumn has come.

RIVER NEWS.—The Cumberland was falling
slowly yesterday, and there are not more than
three feet on Harpeth Shoals.
The Monticello returned from the river
on account of the fall, after reaching Lindsey's
Island. She was advertised to leave last night
for Paducah.

The Empire left last night for Cincinnati.

Legislative Summary.

In the Senate, yesterday morning, after
the transaction of some unimportant business, an
adjournment until 9 A. M. to-day was moved
and carried.

In the House, in the morning after several inef-
fectual ballots for Speaker, an adjournment
took place until 2 P. M. In the evening the
balloting was continued until the 26th call,
when the house adjourned to 9 A. M. to-day.

Mechanics' Fair—Address.

We are requested to announce that THOMAS
S. FOSTER, Esq., will deliver the Address be-
fore the Mechanics' Institute at Odd Fellows'
Hall on Friday night.

BEST SPECIMEN OF BOOK PRINTING.—The
Publishers of the True Whig were the for-
tunate competitors at the Agricultural and Me-
chanical Fair at the Walnut Course yesterday
for the premium for the best specimen of Book
Printing. The specimen exhibited was the 1st
volume of Speed's Reports of the Supreme
Court, consisting of 770 pages. It will com-
pare favorably in point of typographical ex-
ecution, with any book in the legal libraries
of the city. There were several competitors
for the premium.

The premium for Job Printing was awarded
to J. B. G. KINLOCH, of Knoxville.

YELLOW FEVER.—Our Memphis exchanges,
which are up to the 29th, mention some few
cases of yellow fever as occurring there. The
Montgomery Advertiser of the 29th says that
since the 26th, six new cases had occurred in
that place. The disease was not malignant,
and generally yielded readily to treatment.

DEER POTATO.—We were under the impres-
sion that our collection of Agricultural curiosities
embraced the largest yams that had been
exhibited this season. But the plus ultra
arrived yesterday. Col. A. W. Johnson an-
nounced one from his buggy in front of our
office yesterday, and rolled it in the door, which
measures 32 inches in circumference, and
weighed 74 pounds. We challenge the world
and the rest of mankind to beat it.

PERSONAL.—JAS. L. DAVIS, Esq., Editor of
the Springfield Intelligencer, is on a visit to the
city. The hope to see him frequently in our
sanctum.

The Intelligencer circulates in a rich coun-
try trading with this city, and is a desirable
medium for advertising.

HOBBS'S SACRIFICE OF LIFE ON THE WESTERN
WATERS IN 44 YEARS.—From Lloyd's forthcoming
Steamboat Directory, we learn that since the
application of steam on the Western wa-
ters, there have been 39,722 lives lost by steam-
boat disasters, 381 boats and cargoes lost, and
70 boats seriously injured, amounting, in the
aggregate, to the enormous sum of \$67,000,000.
It is to be hoped that this forthcoming work
will have the effect of arresting the attention
of the Government to the importance of Western
interests, so far as our rivers and lakes are
concerned.

Capt. E. D. FARNSWORTH is the authorized
agent in this city to receive subscriptions for
the above work.

Tennessee Marine and Fire Insurance Company.
At an election held at the office of the Ten-
nessee Marine and Fire Insurance Company,
on Monday, the 1st of October, 1855, the per-
sons hereinafter named were duly elected Direc-
tors for the ensuing year, viz:

Jno. M. Hill, Thompson Anderson,
James Corry, C. M. Owen,
G. M. Fogg, James Ellis,
Alex. Allison, N. E. Alloway,
B. H. Gardner, Wm. S. Eakin,
Jas. Yaulk.

It will be seen from the above list, that sev-
eral of the old Directors were not elected; they
having either business to transact, declined a
re-election.

The new Board met on Friday, 24 of Octo-
ber, 1855, and adopted a resolution dispensing
with the office of Clerk to the Company, and
requiring the President and Secretary to per-
form the same duties heretofore performed by
the President, Secretary and Clerk.

Jno. M. Hill, Esq., having tendered his
thanks to the Board for the confidence reposed
in him, in electing him President for a series
of twelve years, requested that his name should
not be used before the Board as a candidate
for re-election to the office of President, where-
upon the Board proceeded to the election of
President, when upon counting the ballots it
appeared that Jas. Vank, Esq., was unani-
mously elected President for the ensuing year.

Mr. Alloway then offered the following res-
olution, which was unanimously adopted:

Resolved, That the thanks of this Board be unani-
mously tendered John H. Fogg, for the able and
important manner in which he has discharged
the duties of President of this Company for the
past twelve months.

THE NASHVILLE

State Agricultural Fair—Second Day.

The attendance at the fair grounds yesterday
was much larger of both ladies and gentle-
men than on the day previous. The weather,
however, was very unfavorable, and many
left before an opportunity was afforded them
to examine the various articles on exhibition.
The number of exhibitors and the variety of
articles were not so large as we had antici-
pated. The Mechanics' Fair, in progress in the
city, has drawn off quite a number of exhibi-
tors in the various branches of that depart-
ment. Still, enough was exhibited to show
that Tennessee possesses mechanics of rare
skill and ingenuity.

In the department of Cabinet and Carpen-
ters' work, there were only a few specimens
exhibited, and to these premiums were award-
ed.

In the Lumber department there were no
exhibitors, although the mountains and valleys
of Tennessee abound in as fine timber as is
found on the continent.

In the Hat department, A. J. Francisco and
Waterfield & Walker exhibited some specimens
that are worthy a premium from any fair.

In the Shoe and Boot department there were
some very fine specimens of different kinds of
work. Our shoe-makers need not fear com-
petition from abroad, while they manufacture
work equal to that exhibited yesterday.

We were disappointed in finding no leather
on exhibition, as we have in Tennessee tan-
neries that manufacture leather equal to that
produced in any part of the country.

The specimens of printing exhibited show
that our printers in Tennessee have arrived
at very high perfection in the art.

There was quite a handsome display of Ag-
ricultural Implements and other useful ma-
chines. Upon these, however, the judges de-
fined their report until to-day.

The Carriages, Buggies, &c., on exhibition,
were few, but they were of such a character,
in point of superior workmanship and finish,
as to challenge the admiration of the best
judges on the grounds.

Strange enough, the farmers of Tennessee
seem not to have been awakened and aroused
to the importance of this Fair. It was intend-
ed to embrace the whole State, and it would
have been highly gratifying to the officers of
the Bureau, if specimens of the product of the
Fair from every county in the State.

Instead of that, however, the exhibition of ag-
ricultural products, embracing the field, the
orchard, and the garden, was extremely meagre.

For instance, there was only one speci-
men of corn exhibited, and yet Tennessee is
one among the largest corn-producing States
in the Union. There was only one specimen
of each, oats, rye, and cotton; no leaf tobacco,
and only three specimens of wheat. These
facts show that the farmers of Tennessee, as a
body, have taken no interest whatever in an
enterprise of the greatest importance to them.

There is so much to be gained, so much to be
learned, by farmers from all parts of the State
meeting together and interchanging opinions
and facts upon the various subjects of im-
mediate importance to them, that it is incompre-
hensible how they have permitted such an op-
portunity to pass without participating in its
advantages.

There was quite a handsome display of flow-
ers, but the judges deferred their report until
to-day.

The exhibition of products of the dairy was
limited, though the entries were articles of the
highest order of merit.

The exhibition of poultry was also limited.
Among the chickens, we noticed one, full
grown, with three legs. The extra leg, though
well formed, was not so large as the others,
but it was as long, and consequently, was of
no service in walking.

Our fair country women who exhibited
specimens of their bread and cooked meats,
are entitled to the highest honors for their per-
fection in the culinary art. Men whose taste
eminently qualify them to decide in such mat-
ters, were upon the committee to whom these
specimens were submitted, and they were sur-
prised, indeed, if we may be permitted to sur-
mise, from the number of times they were found
tasting the respective articles before arriv-
ing at a conclusion.

We annex as perfect a list of the premiums
awarded yesterday as we could procure, several
of the committees having deferred their re-
ports, in whole or in part, until to-day.

Cabinet and Carpenters' Work.

Half dozen Chairs, B. F. Brown, Nashville, prem.
Rocking Chair, entered by W. H. Gordon & Co.,
prem. (This chair was manufactured at Clarksville,
and the judges awarded it a premium on account of
the superior workmanship displayed.)

Venetian Blinds, W. Freeman, Nashville, prem.

Hats.
Fur Hat, Waterfield & Walker, Nashville, prem.
A. J. Francisco, cor.

Silk Hat, Waterfield & Walker, prem.; A. J.
Francisco, cor.

Ladies' Riding Cap, A. J. Francisco, diploma.
Cliff Hat, Mrs. A. Barnes, Sumner, prem. (This
hat was manufactured of the sea weed, (wove), and
is a very handsome specimen.)

Boots and Shoes.
Pair Men's Boots, E. Fuller, Asheville, prem.
Pair Ladies' Shoes, Daniel Winters, Nashville, prem.

Pair of Shoes made by a lady, Mrs. H. G. Sovel,
Nashville, prem. and cor.

Pair Currier Negro Shoes, W. N. Carr, Nashville,
prem.; E. Fuller, Nashville, cor.

Printing.
Specimen of Book Printing, B. R. McKennie &
Co., of the Nashville True Whig, prem.; Southern
Mechanical Publishing House, Nashville, cor.

Fancy Book Binding, J. B. G. Kinloch, Knoxville,
prem.; J. F. Morgan, Nashville, cor.

Cups.
Ride, Howell & Williams, Hardeman, prem.;
N. M. Bearden, Lincoln, cor.

Carriages, Buggies, &c.
Carriage, Cross & Kune, Columbia, prem.; Cran
& Shepherd, Nashville, cor.

Buggy—Two very superior specimens were en-
tered, and the judges were unable to decide which
was the best, recommended that premiums be
awarded to both. One was manufactured by Cran
& Shepherd, of Nashville, and the other by
Trotting Wagon, Cran & Shepherd, prem.
Sulky, Cran & Shepherd, prem.
Set of Harness, Sargent, Brown & Co., Columbia,
prem.; M. H. Henson, Nashville, cor.

Iron Castings.
Cooking Stove, Sargent, Mackenzie & Co., Nash-
ville, prem.

Minerals of Tennessee.
Best display and richest variety of Tennessee
Minerals, Prof. J. M. Safford, State Geologist, prem.;
T. Fanning, Franklin College, cor.

Agricultural.
Wheat, A. T. Nolan, Williamson, prem. (Mr.
Nolan's wheat yielded 60 7/10 bushels to the acre.)
